2018 - 2023

Project & Activities

~~~~~Project~~~~~

Web Application (Calendar App)

Interactive Calendar Project

Developed an interactive calendar application using HTML, CSS, and JavaScript. Key features include dynamic day order adjustment for holidays, detailed timetable display for each day, and holiday/weekend highlighting. Designed a responsive interface with user-friendly navigation and interactive elements such as tooltips and click-to-view period details.

~~~~~Activities~~~~~

Quiz

- Science Quiz: Achieved 1st place, demonstrating excellent knowledge and quick problem-solving skills.
- English Quiz: Actively participated, showcasing proficiency in language and communication.
